Description

Hi Robert, please find enclosed:
- a potential fix for the AllowedRange Feature
- enhancement for disabling dates before Today (cumulative with others date restrictions)

History

#1 - 10/07/2010 02:20 PM - Robert Ivens

- Status changed from New to Rejected

Hi Fabrice,

Thank you for the patch!
The allowedDateRange wasn't fully implemented yet so that's the reason it didn't work for you. I just released version 1.0.1 with the AllowedDateRange working.
Since your functionality duplicates part of this function I won't apply your patch.
To get the same result you now use the following syntax:

```
_oDP.setAllowedDateRange(new Date(),null); // From , To
```
