#### Description

When you set Picker as multiselect, every time you show de list, all rows are not selected. Some times (i.e., in order to edit) the user wants to pre-select some rows.

For example, you can fill a parameter ("form.selectedRows") with an Array of values (based on "form.pickColumn" field)

#### History

##### #1 - 11/11/2017 08:11 PM - Robert Ivens

- Assignee set to Robert Ivens
- Target version set to 1.1

##### #2 - 11/12/2017 08:33 PM - Robert Ivens

- Status changed from New to Closed
- % Done changed from 0 to 100

Applied in changeset r67.
