Description

When you set Picker as multiselect, every time you show de list, all rows are not selected. Some times (i.e., in order to edit) the user wants to pre-select some rows.
For example, you can fill a parameter ("form.selectedRows") with an Array of values (based on "form.pickColumn" field)

History

#1 - 11/11/2017 08:11 PM - Robert Ivens

- Assignee set to Robert Ivens

- Target version set to 1.1

#2 - 11/12/2017 08:33 PM - Robert Ivens

- Status changed from New to Closed

- % Done changed from 0 to 100

Applied in changeset r67.
