

VelocityReport Plugin - Defect #1167

Velocity does not parse template in svy8

01/03/2017 03:09 PM - Jos de Bruijn

Status:	Rejected	Start date:	01/03/2017
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	velocity	Estimated time:	0.00 hour
Target version:			
Browser (if web client):	chrome, ie, firefox		

Description

It looks like the velocity report is not parsing correctly in svy 8.
All I see is the velocity tags like '#h(\$!row.a1_return_value)' instead of the parsed data.
I've attached a sample solution that works correctly in svy 7 and not in svy 8.

History

#1 - 01/03/2017 05:45 PM - Patrick Talbot

- Status changed from New to Rejected

Working perfectly fine in 8.1.1 here...

My guess is that you are not pointing velocityreport.reportfolder to a correct location, remember that you should point to a folder that contains at least the 'VM_global_library.vm' file (this is the one containing the #h() macro code, without Velocity finding that file, you cannot use #h())
