Target version:	1.1		
Browser (if web client):			
Description			
I would like a checkbox on the multi-select column that allows a user to select ALL multi-select check boxes returned in a list picker dialog.			

History

#1 - 11/11/2017 08:09 PM - Robert Ivens

- Target version set to 1.1

#2 - 11/12/2017 08:33 PM - Robert Ivens

- Status changed from New to Closed

- % Done changed from 0 to 100

Applied in changeset r67.

#3 - 11/08/2018 10:04 PM - John Michael Parkan

Selecting the Select All button on the List Picker without scrolling down to the bottom of the current list picker foundset, if over approximate 200 line items, will only check the first approximate 200 items. Scrolling down to the bottom of the list will load all the line items and therefore they will be checked.
