<b>Browser (if web client):</b>			

#### Description

I am testing the new Servoy 8.2 RC 2. After installing the plugin the page:  
<http://localhost:8080/servoy-service/velocity/VelocityWebClient> throws an exception.

I have tested the latest version of the plugin.  
Below is the full report of the exception

Regards,

Sjoerd Hannema

```
HTTP Status 500 - Servlet.init() for servlet servoy_web_services threw exception
```

```
type Exception report
```

```
message Servlet.init() for servlet servoy_web_services threw exception
```

```
description The server encountered an internal error that prevented it from fulfilling this request.

## History

### #1 - 08/29/2017 12:08 PM - Sjoerd Hannema

- Status changed from New to Feedback
- Assignee set to Patrick Talbot

Also in final release Servoy 8.2 it is not working. I think it is related to the change of application\_server/lib/commons-pool.jar. In Servoy 8.2 it is changed to application\_server/lib/commons-pool2.jar.

### #2 - 09/11/2017 06:36 PM - Patrick Talbot

- Status changed from Feedback to Resolved

Fixed in v3.5.53
