VelocityReport Plugin - Defect #1253

getImageTag is not rendering the tag

09/11/2017 03:49 PM - Diana Bodnarescu

Status:	Closed		**Start date:**	09/11/2017
Priority:	Urgent		**Due date:**	
Assignee:	Diana Bodnarescu		**% Done:**	0%
Category:	velocity		**Estimated time:**	0.00 hour
Target version:	v3.0			
Browser (if web client):				

Description
We are using VelocityReport 3.0 with Servoy 7.4.8. In developer's debug client, using Java 8u77, getImageTag works just great. In a smart client, using java 8u131 on the client machine, getImageTag is not rendering the tag. This is how we are using getImageTag in the template: https://www.screencast.com/t/SdgdXoj1 (template file is attached). and this is how the resulting html looks like, from developer versus smart client: https://www.screencast.com/t/pbaas6cbM

History

#1 - 09/11/2017 03:52 PM - Diana Bodnarescu

if i put the no_picture (png) in all cases, it is shown. So it works with normal media, but not with a blob.

#2 - 09/11/2017 06:37 PM - Patrick Talbot

- Status changed from New to Feedback

- Assignee changed from Patrick Talbot to Diana Bodnarescu

Is there anything in the servoy_log.txt?

#3 - 09/12/2017 09:22 AM - Diana Bodnarescu

There is nothing in servoy_log.

#4 - 09/15/2017 11:52 AM - Diana Bodnarescu

Is there any other info/feedback i can provide?

#5 - 10/10/2017 06:00 PM - Patrick Talbot

Sorry, I've had zero time to check this lately.

What you could do to work around that until I get to the bottom of it, is to use getByteMedia() to prepare the output of the blob in the template... Then in the template simply use $!theVariableName to output the image.

#6 - 10/15/2017 10:52 AM - Patrick Talbot

- Status changed from Feedback to Closed
