Description

When trying to create a PDF report with Chinese text, it does not print the Chinese characters.
While the generated HTML file (renderTemplate) does show the text correctly.
Velocity 3.5.53
Servoy 8.2.2 (NG Client)

History

#1 - 07/20/2018 01:41 AM - Patrick Talbot

Looks like the fonts are inserted in the PDF encoded in ANSI, instead of UTF.
No idea where in the xhtmlRenderer and iText this happens and if I will be able to fix it.

#2 - 07/31/2018 03:13 PM - Jos de Bruijn

Hi Patrick,
Any update on this item? Do you think you will be able to help me with this?
