

Gantt module - Feature #145

Make the gantt (also?) work in hours instead of (only) days

08/31/2010 11:27 AM - Robert Ivens

Description			
It would be nice if the Gantt would work in hours so that a task can have a duration of lets say 27 hours.

- Target version set to A future release

#2 - 10/13/2010 11:06 PM - Harjo Kompagnie

Would love to see this feature!!
we have a project system, that goes by the hour & day.

#3 - 10/14/2010 10:44 AM - Lambert Willemsen

+1 for us. Our schedule solution also works with day hours.

#4 - 10/27/2010 10:25 AM - Robert Ivens

- Target version changed from A future release to 1.1

Question to you all:

What would the lowest unit you be using. Hours ? Quarter hours ? Other?

#7 - 06/11/2011 05:57 PM - Harjo Kompagnie

For us, customers can plan action per 5 minutes.

#8 - 06/13/2011 09:19 AM - Robert Ivens

So essentially you are not working in hours but in minutes.
What would the date range of the chart be ? I.e. are you just showing 1 day ? Or more ?
Also do you need headers that reflect this (5 minute) interval or can this be a longer interval?

Hours will do for us.

We are now using the calendarbean of marcel. which is qua gantt limited

there we can say, 1 day, 5 days, & 7 days.

I have added some screenshots (what you see is an event on 31 mei of 10 minutes.)

no, dont need, the exact headers for minutes, they can be longer. We can now, just use a tooltip, to see the exact timing of the event.
