Description

I have tested version 8.4.0 RC1 which is released on 2018-12-5.
Velocity-plugin is not working on this version. Can you check this for the new Servoy Version 8.4.

Plugin: VelocityReport (not loaded) --> java.lang.reflect.InvocationTargetException

Velocity-webservice: errors:

```

History

#1 - 12/22/2018 11:16 AM - Sjoerd Hannema

- Status changed from New to Feedback

The problem is the new version of log4j in Servoy 8.4.

Velocityreport requires the old version. I have copied the old log4j.jar file from 8.3 (application_server/lib) to the 8.4 applications_server/plugins/velocityreport).
Velocityreport 3.5.59 is then working as expected.
