<b>Browser (if web client):</b>			

#### Description

Robert,  
can you install this little patched projects\_controller.rb in SF?

Only change is that the default order for the files list is by 'created\_on desc' instead of 'filename asc'.

I find it better because lately I had a 2 users already who downloaded the wrong version of the VelocityReport (VelocityReport-v1.2.1.zip instead of VelocityReport-v1.3.1.zip) because they clicked on the first link in the list...

Thanks!
