

JSListPicker module - Feature #1565

Turn off Data Broadcast while using the List Picker

03/20/2020 11:22 PM - John Michael Parkan

Status: Duplicate	Start date: 03/20/2020
Priority: Normal	Due date:
Assignee: John Michael Parkan	% Done: 0%
Category:	Estimated time: 0.00 hour
Target version: 1.1	
Browser (if web client):	
Description Sometimes the list contains things like live quotes or projects which are being worked on by other users and therefore the data broadcast will fire incessantly as the updates hit the quotes/projects et al in the list.
