| Description | | | |
| <p>After the latest update of Servoy 2022.3.0 it gives me the following error if I try to sign the PDFs with a digital signature. Before the Servoy update, the plugin signed it for me without problems, but now the following error appears: class org.bouncycastle.asn1.ASN1UTCTime cannot be cast to class org.bouncycastle.asn1.ASN1Set (org.bouncycastle.asn1.ASN1UTCTime and org.bouncycastle.asn1.ASN1Set are in unnamed module of loader com.servoy.j2db.server.main.Zf @1fb56f56)</p> <p>Can someone explain to me what is causing this error and how can I solve it?</p> | | | |
