What version of Servoy do you use?
Is this in Developer or Smart client?
What kind of field do you attach it to?

#2 - 11/17/2010 12:17 PM - Alicelis Hurtado

What version of Servoy do you use?

Servoy Version: 4.1.7 - build 690

Is this in Developer or Smart client?

Developer

What kind of field do you attach it to?

DataProvider : globals.svy_sec_userpw1
DisplayType : PASSWORD

the example does not work.

Thanks!!

- Status changed from New to Closed

Hi Alicelis,

very sorry, I totally forgot about this issue, just saw it the other day when another user put a different one...

I just tried with v1.2 and indeed it doesn't work in 4.1.x
Still the previous version is working fine, so I would recommend using it until you upgrade your Servoy to 5.x or more, where the new version is updated to work on many different forms on the same element name.
