Description	
Hello,	
it would be nice to have the possibility to show a Jasper report not only in a new window, but also to show it on a bean placed on a normal Servoy form.	
For details see: http://forum.servoy.com/viewtopic.php?f=15&t=15571#p83754	
I don't know exactly if this is possible or too complicate - but would be a usefull feature, especially for Smart Client.	
Regards	
Schoby
