DnDFile Bean - Defect #24

Resolve shortcuts

06/24/2010 09:39 PM - Patrick Talbot

Status:	New	**Start date:**	06/24/2010
Priority:	Normal	**Due date:**	
Assignee:		**% Done:**	0%
Category:		**Estimated time:**	0.00 hour
Target version:			
Browser (if web client):			

Description
On windows, the shortcuts are not resolved, meaning that if you drop a shortcut it will be retrieved as a file with a .lnk extension. There is a possible workaround for this, and I can implement it if there is sufficient need/vote for it. On Mac/Linux, shortcut should be symlink so be already resolved, but I haven't done any proof testing of it. Please comment here if you find it different.
