DnDFile Bean - Defect #25

Usage in List/Table view

06/24/2010 09:40 PM - Patrick Talbot

Status:	Rejected		**Start date:**	06/24/2010
Priority:	None		**Due date:**

Target version:				
Browser (if web client):				

Description

The bean behaviour is a little bit odd when used in List mode: you first have to click on a record of the form containing the bean to be able to use it, but I would guess it's standard Servoy limitation.

I haven't been able to use it reliably in Table mode either.
Anyway, there is little sense in using it other than in record mode, so I would recommend to stick with record mode to get the best results.

History

#1 - 07/17/2010 07:29 AM - Patrick Talbot

- Status changed from New to Rejected

- Priority changed from Normal to None
