

Twitter Plugin - Defect #274

getTimeline with retweets quirks

04/23/2011 09:59 PM - Robert Ivens

Status:	Closed	Start date:	04/23/2011
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:			
Browser (if web client):			
Description			
When I use getTimeline with retweets then getReplies or getDirectMessages or getRetweetsOfMe (and perhaps others) give no result. When calling those functions for a second time it does give a result. All this doesn't occur when I get the timeline without the retweets.			

History

#1 - 04/23/2011 10:04 PM - Patrick Talbot

Hum... I don't see any kind of cache in the JTwitter lib, so I have no idea where this could come from...
I hope I will not have to modify the lib itself, I have enough of my own code to maintain :(

#2 - 04/24/2011 03:12 AM - Patrick Talbot

- Status changed from New to In Progress

Cannot reproduce with 0.8.1 - please confirm

#3 - 04/24/2011 07:48 PM - Robert Ivens

- Status changed from In Progress to Resolved

Seems to work properly now.

#4 - 04/24/2011 08:31 PM - Patrick Talbot

- Status changed from Resolved to Closed
