

## KeyListener Plugin - Feature #284

### Add a "number of chars before callback" parameter to the addKeyListener method

04/27/2011 02:11 PM - Patrick Talbot

<b>Status:</b>	Closed	<b>Start date:</b>	04/27/2011

#### Description

The idea being that this would give a threshold before triggering callbacks.

Some users are testing the number of chars before acting (for custom type-ahead calls for example) and they don't really need to receive any events before a certain number of chars is in the field.

- On behalf of Serge Lesouef

#### History

#1 - 12/13/2011 08:16 PM - Patrick Talbot

- Status changed from New to Closed
- Client type set to Any
- In developer? set to No
- Servoy version set to Any
- OS version set to Any
- Java version set to Any
- Browser (if web client) set to Any

Solved with patch from Patrick Rushert, see [#379](#)
