VelocityReport Plugin - Defect #298

foreach loop over foundset skips first record

05/11/2011 11:54 PM - Jeroen de Vries

Description
v1.4.11 skips the first record of a foundset. I reverted back to v1.4.10, in that version this is not the issue.

History

#1 - 05/12/2011 01:41 AM - Patrick Talbot

Hum.. I did change something there but looking at the code I changed it shouldn't do that.
I will make some tests, it shouldn't be difficult to fix.
Thanks for reporting!

#2 - 05/12/2011 09:04 PM - Patrick Talbot

- Status changed from New to In Progress

#3 - 05/12/2011 09:07 PM - Patrick Talbot

I haven't been able to reproduce.
I found a little problem when using the defaultReportParameter 'onBasedLoops' though and I have corrected it in v1.4.12

Could you check that one, and if you still see this behavior, send me a little sample?

#4 - 05/16/2011 09:26 AM - Jeroen de Vries

- File velocity_skip_first_record_in_dataset_sample.servoy added

The problem is not solved but upon closer inspection I found that the problem is with dataset (I didn't check foundsets).
Here is a sample. The first record isn't skipped but not evaluated which I didn't see before due to other processing in my template.

#5 - 05/17/2011 02:53 PM - Patrick Talbot

Indeed it was on Dataset only. Have found and fixed the issue (your sample did help, thanks!)
Will release an update v1.4.13 soon.

#6 - 05/17/2011 05:07 PM - Patrick Talbot

- Status changed from In Progress to Closed

Fixed with v1.4.13
