

Dialogs module - Defect #317

eval doesn't like the way arguments are passed

06/01/2011 08:45 PM - Robert Ivens

Status:	Closed	Start date:	06/01/2011
Priority:	Normal	Due date:	
Assignee:	Robert Ivens	% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:	1.0.1		
Browser (if web client):			
Description			
Too deep recursion while parsing (E:\Dropbox\ServoyWorkspaces\WorkSpaceMay2011_RelationLess\mod_dialog\globals.js#89(eval)#1) at E:\ServoyWorkspaces\WorkSpaceMay2011_RelationLess\mod_dialog\globals.js:89 (showDialog) Fix is to pass the arguments in a JS Array with just the real values instead of a JS Array with argument objects.
