

KeyListeners Plugin - Defect #33

It is not web compatible

06/25/2010 07:31 AM - Patrick Talbot

Status:	Rejected	Start date:	06/25/2010
Priority:	None	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:			
Browser (if web client):			

Description

There is little chance that it will ever be.

The event firing from key strokes in the browser would otherwise cause Ajax request to the server thus overloading it for no good reason most of the time.

History

#1 - 07/17/2010 07:27 AM - Patrick Talbot

- Priority changed from Normal to None
