

## Dialogs module - Defect #335

### Request for a 'close' function

06/28/2011 05:16 PM - Rafi Galibov

<b>Status:</b>	Resolved	<b>Start date:</b>	06/28/2011
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>		<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	1.1.2		
<b>Browser (if web client):</b>			

#### Description

I am using it in a solution that is sending emails from a web page.

If the email goes successfully, I am displaying a dialog saying 'success' and have a button saying 'Done' on it.

This gets passed back to a global and my client wanted the web page/solution to close when the email was sent successfully so that the Servoy client licence wasn't kept in use, in case the user left the browser open

so I am doing this

@

```
globals.send_form_nhs_mail ( event, globals.send_to, globals.send_subject, globals.send_msg_txt, globals.attachment_file_name,
globals.send_msg_type );
```

```
if ( ( application.getApplicationType ( ) APPLICATION_TYPES.WEB_CLIENT ) && (globals.button_pressed 'Done'))
{
    application.sleep(3000) ;
    application.closeForm(true) ;
    application.closeSolution() ;
}
```

@

where your dialog is being called in the globals.send... method,

@

```
if ( globals.is_headless != 1 ) {
if ( !success ) {
globals.DIALOGS.showWarningDialog ( 'Alert', plugins.mail.getLastSendMailExceptionMsg ( ), 'OK' );
}
else {
globals.button_pressed = globals.DIALOGS.showInfoDialog ( 'Success', globals.send_msg_type + ' Sent Successfully!', 'Done' );
}
}
```

@

but what is happening is that your 'dialog' is not closing, so the solution closes in that window and things look weird.

I added the sleep hoping it would give it enough time to go, but it doesn't, so could you add a 'globals.DIALOGS.close();' to allow me to force it to close? (I also added the closeForm, but that didn't help...)

#### History

#1 - 06/28/2011 07:08 PM - Robert Ivens

- Status changed from New to In Progress

I've got Johan looking at it now. It might be related to this reported issue : <https://forum.servoy.com/viewtopic.php?f=9&t=16373>

#2 - 07/01/2011 03:00 PM - Robert Ivens

- File mod\_dialog.servoy added

Can you try this version and see if still see the 2 issues you reported.

**#3 - 07/01/2011 04:02 PM - Robert Ivens**

- File deleted (*mod\_dialog.servoy*)

**#4 - 07/01/2011 04:02 PM - Robert Ivens**

- File *mod\_dialog.servoy* added

New version for you to test.

**#5 - 07/02/2011 10:22 AM - Robert Ivens**

- Status changed from *In Progress* to *Resolved*

Version 1.1.2 that is just released should solve the issues you have. To make it work properly in the web client you need Servoy 5.2.10 or 6.0rc3 (or higher).

Both Servoy versions are not yet available at this time.

**#6 - 07/02/2011 10:24 AM - Robert Ivens**

- Target version set to *1.1.2*
