

Dialogs module - Defect #342

Correct formname?

07/06/2011 01:17 PM - Martin Heere

Status:	Closed	Start date:	07/06/2011
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:	1.1.3		
Browser (if web client):			
Description			
In function showDialog() var _sUniqueName = application.getUUID().toString() This string, the "-" must probably replaced by "", like in the demo solution			

History

#1 - 07/06/2011 05:38 PM - Robert Ivens

- Status changed from New to Closed
- Target version changed from 1.1.2 to 1.1.3

Thanks. Fixed it for 1.1.3
