

## Servoy JasperReports Plugin - Defect #347

### i18n breaks on subreports

07/26/2011 11:36 PM - Scott Butler

<b>Status:</b>	Closed	<b>Start date:</b>	07/26/2011
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>	Andrei Costache	<b>% Done:</b>	0%
<b>Category:</b>		<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>			
<b>Browser (if web client):</b>			
<b>Description</b>			
Using the latest version of the plugin, and using FoundSet reports with subreports (as described here: <a href="https://www.servoyforge.net/projects/servoy-jasperreports/wiki/Servoy_JasperReports_Plugin_v320_-_Release_Notes">https://www.servoyforge.net/projects/servoy-jasperreports/wiki/Servoy_JasperReports_Plugin_v320_-_Release_Notes</a> ), i18n breaks on the subreports. So if you place a field with <code>#{my.i18n.key}</code> it will work on the main report, but not on the subreports.			

### History

- Assignee set to Andrei Costache

Hi Scott,

It should work if you have add the REPORT\_RESOURCE\_BUNDLE as a parameter for the subreport. Add this to your main report:

```
<subreportParameter name="REPORT_RESOURCE_BUNDLE">  
<subreportParameterExpression><![CDATA[#{REPORT_RESOURCE_BUNDLE}]]></subreportParameterExpression>  
</subreportParameter>
```

Hope this helps.

Regards,  
Andrei

#### #3 - 09/23/2011 07:42 PM - Imre Tokai

Hello,

Is there anything else to configure? I get **null** when try to display `#{my.i18n.key}` in subreport.  
Have I missed sg?
