Description

Sometimes when drawing a chart you don't want to select colors but let the tool generates colors for you (very nice feature when it uses gradients), but it doesn't work.

This works fine:

chartDef.slices = [{percent: 29.5, color: '#FF0000', label: 'Thirty', legend: 'Thirty L'},   {percent: 25, color: '#00FF00', label: 'Twenty-Five', legend: 'Twenty-Five L'}
]

this does not (the legend is not drawn):

chartDef.slices = [{percent: 29.5, label: 'Thirty', legend: 'Thirty L'},   {percent: 25, label: 'Twenty-Five', legend: 'Twenty-Five L'}
]

History

#1 - 08/15/2011 03:31 AM - Patrick Talbot

- Status changed from New to In Progress

#2 - 08/15/2011 03:36 AM - Patrick Talbot

- Status changed from In Progress to Closed

- % Done changed from 0 to 100

Fixed with v1.4.14
