Description

When using the function addToSpellChecker I am getting a warning which says "The function addToSpellChecker(Component,Boolean,Boolean) is not applicable for the arguments (RuntimeTextArea,Boolean,Boolean)" in Servoy 6.0 like ...
plugins.servoyguy_spellcheck_pro.addToSpellChecker(elements.notes, true, false);

And Type casting 'elements.note' which is a RuntimeTextArea to Component is not supported in Servoy 6.0
