<b>Description</b>			
Hi,			
I noticed that since few days, the svn project repository url has disapeared from project page			
Thanks			

#### History

##### #1 - 08/18/2011 07:55 PM - Patrick Talbot

It's gone after the update we did a while ago.

@Robert: was it a plugin?

I know there is a Checkout plugin available <http://dev.holgerjust.de/projects/10/wiki> but I don't think that's what we used before.

But we could try it maybe?

##### #2 - 08/19/2011 08:27 AM - Robert Ivens

- Status changed from New to In Progress

It's indeed a plugin and it was the one you linked to.

We used an older version that simply showed the link and that's it. The new version does a lot more but seems incompatible with the latest version of Redmine we upgraded to.

Perhaps the older, more simpler version will actually work. I will test that.

##### #3 - 08/21/2011 12:28 PM - Robert Ivens

- Status changed from In Progress to Closed

I installed the original (simple) version of the checkout plugin and that seems to work fine with the latest Redmine version.

So the URL is back in the repository tab.
