A build that includes Chart and Script as well as bar code support is needed (by several developers). It would be helpful to have this done by the Jasper Report Plug-in team for a number of reasons (unified support, signing issues, developer capability [lack of], etc.). Would this be possible?

History

#1 - 10/08/2012 09:49 AM - Andrei Costache

- Status changed from New to In Progress

- Assignee set to Andrei Costache

- Component version set to 3.3

Andrei,

Has there been any progress on this? Do you have an expected release date?

Thanks!

Kim
