| Description | | | |
| Hi, | | | |
| when I use the busy plugin on a dialogue form it will not work when opacity is 0 when I set it to a very small number it works !! | | | |
| <pre>var params = { processFunction: getMails, //message: 'Lengthy process... please wait!', opacity: 0.00000001, paneColor: '#FF0000', textColor: '#000000', showCancelButton: false, cancelButtonText: 'Stop!', dialogName: 'Parent' }; plugins.busy.block(params);</pre> | | | |

In that case, I would say: you've find the workaround yourself :)

#2 - 02/24/2012 08:57 AM - Hans Nieuwenhuis

In my opinion, a workaround is not a substitute for a Bug fix ;-)

But seriously, I am considering to use the busy plugin in our solution and I want to make sure that it is reliable.

I am just going to use it to show a busy cursor for actions that take one or a few seconds.
For longer actions, i use a progress bar or a headless client.

#3 - 02/24/2012 02:09 PM - Patrick Talbot

In that case, it will do, for lack of time and too many other things to do ;-)

Anyway, most probably the 'fix' for this would be to take your 0 value interma;;u and make it a small double just like you do.
