<b>Browser (if web client):</b>			
<b>Description</b>			
Currently it is possible to align the text in a column. However applying the same format to the column header doesn't work. This would be nice to match both the header and cells.

Hi Marc,

For both features need to tweak format in below methods from example solution  
elements.treeview.setColumnHeaderTextFormat('column2', '<html><b>\$text</b></html>');  
elements.treeview.setColumnTextFormat('column3', '<html><i>\$text</i></html>');

In WebClient <div "right"> works, but in SmartClient html formatting is not completely supported, as a work-over you can put ... tag(s);

Regards

#### #2 - 12/30/2013 05:35 PM - Imre Tokai

- Status changed from *In Progress* to *Resolved*

- Assignee set to *Imre Tokai*

Feature should be available in *servoy-treeview-experimental.jar*

If further work is needed, reopen/create case, please

Regards
