#### Description

When you use code completion on the plugins.jasperPluginRMI plugin, it will popup a nice list of properties/functions. However, the list is not correct:

for example 'reportDirectory' is returned as a function, while it is a property.

#### History

##### #1 - 04/23/2012 09:49 AM - Andrei Costache

- Status changed from New to Closed
- Assignee set to Andrei Costache
- % Done changed from 0 to 100

This is fixed in the plugin code and the fix will be available in the next release of the plugin.

Andrei
