Target version:			
Browser (if web client):			
Description			
When setting the bean to allow multiple select, the bean show random behavior.			
I tried to select the 5th row, holding shift selecting the 8th row and all the rows from the 5th row to the top were selected... Also ctrl-click isn't showing stable behavior.			

History

#1 - 05/16/2012 08:46 PM - Imre Tokai

- Status changed from New to In Progress

Hi,

Haven't been able to replicate this issue in Servoy 5&6: works as expected for both shift and ctrl? If still persists, share an example solution with steps, please

```
init:
elements.treeview.setMultipleSelect(true)
```

Regards

#2 - 05/18/2012 02:35 PM - Marc Boegem

I wasn't able to reproduce this in a sample solution either.

#3 - 12/30/2013 05:37 PM - Imre Tokai

- Status changed from In Progress to Resolved

- Assignee set to Imre Tokai

Feature should be available in *servoy-treeview-experimental.jar*
If further work is needed, reopen/create case, please

Regards
