Browser (if web client):	Chrome			

Description

Hi Robert,

I just tried out your dialog plugin and it would worked peachy in the WC but in the SC it displayed an Error dialog box (and not the Robert Dialog kind) instead of a Question Dialog box. See the image.

Regards,
Omar

History

#1 - 07/01/2012 05:58 PM - Robert Ivens

What image ? :)

#2 - 07/01/2012 06:38 PM - Omar van Galen

- File error_dialog.png added

error_dialog.png. I selected the file before creating the issue.

#3 - 07/01/2012 07:24 PM - Robert Ivens

I see the issue. It seems 6.1 is even more strict in how parameters are passed.
Will try to find a solution.

#4 - 07/01/2012 09:01 PM - Robert Ivens

- Status changed from New to Closed

- % Done changed from 0 to 100

Applied in changeset r81.

#5 - 07/01/2012 09:02 PM - Robert Ivens

- Target version set to 1.5

Found a fix that works in 6.0 and 6.1
Wil be available in next release
