Hi Sanneke,

On what OS/browser did you see the partial icons? I can't reproduce this with the original code/stylesheet.
In fact I DO see it with your proposed stylesheet.

This is on windows/chrome.

Sanneke,

We can't reproduce this anymore with the latest version (1.5.2).
This version doesn't use a stylesheet for the icons anymore.

Can you test things on your side?
