Browser (if web client):	Any		

Description

The Busy plugin has some issues with Servoy property `servoy.webclient.nice.urls` set to true.

I'm creating this case just to save other devs debug time, I don't think a fix would be easy and I don't think it's worth spending time on it anyway.

In this case the problem is when calling `unblock()`, the browser goes back to the solutions list page.

Other similar issues exist with the `WebclientUtils` plugin, so my suggestion is: if you want nice looking URLs use an Apache server in front of Servoy but keep that property set to false.
