Busy Plugin - Defect #556

Calling plugins.busy.prepare() "destroys" date mask behaviour

09/24/2012 12:49 PM - Patrick Ruhsert

Status:	Closed		**Start date:**	09/24/2012

Target version:				
Browser (if web client):				

Description

We have a simple form with a date with this format:

dd-MM-yyyy|mask

The wanted behavior is that a user sees the mask and "overrides" it. So when clicking in an empty field, the mask is shown, so the user knows what entry is expected.

Once we call

plugins.busy.prepare()

this behavior is lost. The mask is never shown.

See http://screencast.com/t/tekOKYqSI4 and the attached sample solution.

History

#1 - 02/25/2014 06:25 PM - Patrick Talbot

- Status changed from New to Closed

Fixed in v2.3
