Description			
Checked out the trunk and there are still a few 6.1 errors.			
In dialogs_base.js on onsetUpButtons, getFormMethod is depreciated.			
in globals.js on this.showFormInModalDialog, String RuntimeForm should be: String RuntimeForm			

History

- Status changed from New to Closed

Fixed in v1.5.2 - except for getMethod() which doesn't exist in 6.0, so to keep backward compatibility with 6.0 I've added a @SuppressWarnings(deprecated) to the method instead of changing to getMethod()
