

VelocityReport Plugin - Feature #568

Adding pluggable services to Velocity

10/29/2012 11:18 PM - Patrick Talbot

Status:	Closed	Start date:	10/29/2012
Priority:	Normal	Due date:	
Assignee:	Patrick Talbot	% Done:	100%
Category:	velocity	Estimated time:	0.00 hour
Target version:	v3.0		
Browser (if web client):			
Description Services would be server side, running in the same server instance or another server. Example of services would be: <ul style="list-style-type: none">- Doc conversion service (using OpenOffice on a server)- Lucene/Solr indexing service- Rules service (using Drools/Drools-Planner)- OAuth authentication service- JavaFX service for alternate charts- etc. Since some required dependencies would be needed this applies server-side only but the Velocity servlet could leverage these external services during HTTP requests.			

History

#1 - 10/29/2012 11:19 PM - Patrick Talbot

- Description updated

#2 - 10/29/2012 11:20 PM - Patrick Talbot

- Java version changed from 6+ to 6/7

#3 - 11/20/2012 05:39 AM - Patrick Talbot

- % Done changed from 0 to 50

#4 - 11/29/2012 02:26 PM - Patrick Talbot

- % Done changed from 50 to 80

#5 - 12/10/2012 02:23 AM - Patrick Talbot

- % Done changed from 80 to 100

#6 - 03/28/2013 02:51 PM - Patrick Talbot

- Status changed from New to Closed
