

VelocityReport Plugin - Defect #570

Arrays are misbehaving after being serialized

11/05/2012 12:17 AM - Robert Ivens

Status: Closed	Start date: 11/05/2012

Browser (if web client):	

Description

The following code outputs: [1],[3,4] instead of 1,3,4 .
So it seems the fromJSON() function doesn't give real JS Arrays back.

```
var _aOriginal = plugins.VelocityReport.fromJSON(plugins.VelocityReport.toJSON(['1', '2', '3', '4'])),
    _aTmp,
    _aTmp2,
    _nPos = 2,
    _nLength = _aOriginal.length;

//_aOriginal = ['1', '2', '3', '4']; // a real JS Array

_aTmp = _aOriginal.slice(0, _nPos - 1);
_aTmp = _aTmp.concat(_aOriginal.slice(_nPos, _nLength));
_aOriginal = _aTmp;

application.output(_aOriginal.join(","));
```
