#### Description

Hello,

I'm trying to use the treeview-been in a web-client, but it shows an error (internal error). Is the "been" not compatible with the web-client?

Thank you for your help

Hi Hendrick,

Just tested sample solution that can be found in Files section with Servoy 6.1.0 & IE 9: it works as expected.  
Have you integrated it to specific solution? Generated HTML might break if surrounding components are incompatible on the form
