

Dialogs module - Defect #594

message i18n not working

12/06/2012 11:33 PM - Harjo Kompagnie

Status:	Closed	Start date:	12/06/2012
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:	1.5.6		
Browser (if web client):			
Description			
Hi Robert,			
We are converting a solution to webclient.			
If use a message with i18n, this is not working!			
This is my call:			
<pre>var vAnswer = globals.DIALOGS.showWarningDialog('i18n:1.warning', 'i18n:1.message.deleterecord', 'i18n:1.ok', 'i18n:1.cancel')</pre>			
I didn't checked the other Dialog, but I assume, this is the same.			

History

#1 - 12/06/2012 11:34 PM - Harjo Kompagnie

- File 2012-12-06_2329.png added

#2 - 12/07/2012 08:00 AM - Robert Ivens

- Status changed from New to Closed

- Target version set to 1.5.6

Fixed in next release (1.5.6)
