

JSListPicker module - Defect #624

`_oLP.buttontext.createNew`

01/18/2013 04:54 AM - John Michael Parkan

Status:	Closed	Start date:	01/18/2013
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:			
Browser (if web client):			

Description

Setting this parameter does not alter the button text. The button text will always say: Create New

I looked at the code and line 318 of the global method for the List Picker says this:

```
createnew: "Create New", // optional, for use with i18n
```

Where createnew is treated as case sensitive. Therefore changing this: `_oLP.buttontext.createNew` to this: `_oLP.buttontext.createnew` works

History

#1 - 11/29/2013 03:20 PM - Robert Ivens

- Status changed from New to Closed

fixed the type. It's 'createNew'.
