Description

i've installed the plugin as described and when I try to use it I get the following error message:
The chosen operation is not currently available.

History

#1 - 02/07/2013 10:33 AM - Harjo Kompagnie

Still happens with 1.0.4 update, I already emailed Patrick with the eclipse error in the log.

#2 - 02/07/2013 02:20 PM - Patrick Talbot

- *Status changed from New to Resolved*

- *Component version changed from 1.0.3 to 1.0.4*

Please download the v1.0.4 again. The previous v1.0.4 was containing a wrong build.
The jar was incorrectly structured. But running it from Servoy in debug from Eclipse didn't show me that...
Sorry for the issue!

(Harjo, you'll probably need to go back in your history to the state before the install)
