Description

March 5 2013 Twitter requires that all Twitter clients use API 1.1.
It seems JTwitter started (or finished?) having support for this.
https://github.com/winterstein/JTwitter/blob/master/changelist.txt

Not sure if it's an easy drop-in replacement or that JTwitter's API has changed much. Let me know if it's a lot of work and we'll discuss options.

History

#1 - 03/04/2013 08:11 PM - Patrick Talbot

- Status changed from New to In Progress

Yes, it's not clear whether the latest lib is fully compatible or not...
Will give it a shot asap and tell you about it

#2 - 03/20/2013 12:01 AM - Patrick Talbot

- Status changed from In Progress to Closed

Fixed in the plugin v1.2 (updated JTwitter and signpost jars)
Only breaking change is that getUserTimeLine() now requires the account as first parameter (see the updated sample).
