

Servoy JasperReports Plugin - Feature #664

the jnlp file should be divided up into 2 sections

03/19/2013 09:05 AM - Johan Compagner

| Description | | | |
| The first must be a plugins jnlp file with really only its own libs (main lib and its support libs in the plugins dir) and that plugins jnlp file should also have another jnlp reference where the servoy shared libs are coming from. This way signing issues will be avoided. | | | |
