#### Description

I'm using the following google url with the Velocity Chart Script builder:

<http://chart.googleapis.com/chart?chxl=0:1|2|3|4|5|6|7&chxr=0,0,1|1.3.333,100&chxt=x,y&chs=440x220&cht=lx&chco=3072F3&chd=t:-1|33,0,40,50,20,10,25&chdl=Ponies&chdlp=b&chls=1.333&chma=5.5,5,25>

The resulting code shows the chart using wrong scaling for the y-axis. It uses the max value (50) as 100 and scales everything accordingly.

I've included a screenshot on how the google api shows the chart vs. how the plugin shows the chart.

- Status changed from New to Resolved

Check out Velocity v3.1rc3 + Velocity Chart Script Builder v1.0.6 which will produce the correct script with autoScaling = false
