Browser (if web client):			
Description			
Some xero API functions require header values, eg			
JSON formatted responses are also supported by setting the "Accept" value in the http header to "application/json" when making a request.			
Individual Invoices and Credit Notes can also be returned in PDF format by setting the "Accept" value in the http header to "application/pdf".			
http://developer.xero.com/documentation/getting-started/http-requests-and-responses/			
Can it be added to the plugin
