Target version:			
Browser (if web client):			

Description

The treeview bean doesn't load anymore in the smartclient when using Java 7 Update 45. This doesn't occur when running smart client from developer.

History

#1 - 12/02/2013 11:59 AM - Imre Tokai

Hi Pascal,

Have just tested and it works in server-mode with latest Java 7u45 on Win8, 64bit. Not sure about MacOSs, though. Are you using bean version from Files section? All plugins/beans should be signed

Regards
