<b>Target version:</b>			
<b>Browser (if web client):</b>			

#### Description

When starting smart client with servoy\_jasperreports plugin following messages appear

Missing Permissions manifest attribute for: [https://crm.servoy.com/plugins/servoy\\_jasperreports.jar](https://crm.servoy.com/plugins/servoy_jasperreports.jar)

Missing Codebase manifest attribute for: [https://crm.servoy.com/plugins/servoy\\_jasperreports.jar](https://crm.servoy.com/plugins/servoy_jasperreports.jar)

Latest signtester adds this but this should be included in the standard servoy-signed downloads

#### History

##### #1 - 02/08/2014 06:18 PM - Andrei Costache

- Priority changed from Normal to High

I think this is more important, as of u51 of Java 7.

##### #2 - 03/25/2014 08:27 PM - Andrei Costache

- Assignee set to Andrei Costache

After re-checking, the standard downloads include this.

What version of the plugin does [https://crm.servoy.com/plugins/servoy\\_jasperreports.jar](https://crm.servoy.com/plugins/servoy_jasperreports.jar) refer to?

This should be included fine in the standard downloads.

##### #3 - 03/25/2014 08:28 PM - Andrei Costache

- Status changed from New to Closed
